Arizona Water Festivals Workshop

For 4th Grade Teachers*

(This workshop will be open to teachers in grades 3-5, with preference given to fourth grade teachers attending the February 25th Water Festival.)

- **Improve your students' inquiry skills**
- **Prepare for the Water Festival**
- **Learn effective teaching strategies for scientific inquiry**
- **Receive the NEW Project WET Curriculum and Activity Guide, V. 2.0!**

The Arizona Water Festival program has had a decade of successful water education for fourth grade teachers and students. At the start of our second decade of growing young water stewards, we are excited to apply what we have learned and re-create the program for the 21st Century. This workshop will share not only great pre- and post-festival lessons but also focus on excellent teaching strategies and using technology in your classroom for the greatest impact. Come learn about water education for future generations!

Workshop dates: February 2nd and 16th
from 3:15PM—7:15PM
