Gang, I am pleased of your efforts. Thank You. A little curb appeal comes along way to make it look nice. I just hope it stays clean from trash that people keep throwing on the ground. Kingman does have alot of polluters here who have no pride or respect for their community or city.

Awesome job everyone. And to think somebody once said all you can grow in Kingman are rocks!

Gang, what a great job. Thanks for adding a little greenery to the new underpass. It really looks fantastic.

Nina is doing a great job promoting gardening, tree planting, and general arbor related improvments to the community. She is to be commended for her work and committment to Kingman.
