

Appendix B: Recruitment Materials

Lygus Management Survey: Informed Consent Script

You are being asked to participate in a survey about Lygus pest management practices and information resources. **Participation is voluntary.** But, if you make pest management decisions about Lygus (including decisions not to treat) we are interested in your knowledge opinions. The survey is both confidential and anonymous. We do not ask for personal information, so specific responses cannot be traced back to individuals. The survey should take ____ minutes [*insert time based on number of questions used*] to complete. The data will teach us about community changes in Lygus management practices and use of Lygus management resources, which will help us to measure the effectiveness of our educational programs and to improve them.

If you have any questions or comments about this study, I can speak with you today. Also, my contact information is provided on the supplemental information sheet.

Thank you.
