

## Sample Extended Service Program (100)

A sample proposal for the operation of an agricultural education program during the summer months and other times when school is not formally in session is to be developed. The plan will include specific areas of operation for the teacher and a demonstrated method of accountability.

### AED 462 Extended Service Program Assignment

---

Name

#### I. Organization System for Program: (75)

A system for conducting an extended service program that includes an introduction that establishes the rationale for the program, a calendar detailing the activities that will be conducted, and a system for documenting the program are all developed and included. (75)

A system for conducting an extended service program that includes an introduction that establishes the rationale for the program and a calendar detailing the activities that will be conducted are included. (60)

A system for conducting an extended service program that includes only the calendar detailing the activities that will be conducted is included. (40)

The system for conducting an extended service program includes some or all of the components but are too brief or lack focus, thus making it difficult to understand the program. (30)

#### II. Accountability System for Documenting the Extended Service Program (15)

A system for evaluating an extended service program is clear and complete. (15)

A system for evaluating an extended service program is not clear and is incomplete (5)

#### III. Value Added Ideas: (10)

Color, notebook, tabs, and/or other ideas are incorporated into the process (10)
